

concept|theme

I want to make a retail website for my skateboard company. It should show of all of the products I make, as well as having individual pages for purchasing/inspecting each individual item.

I would like to have navigation to pages/links for an “About” page, social medias, and past/previous promos.

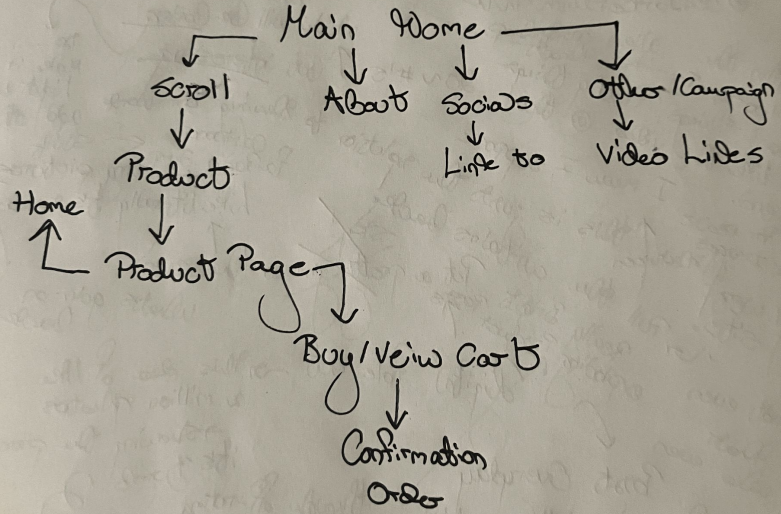

concepts|skills we have covered

- `<link>` to CSS
- margin, padding, width, height , display: flex ect.
- Font: Family sizing color ect.
- Background color
- `<Nav>`
- `<h1...>`
- `<a>`
- ``
- `<form><label>`
- `@media`
- Hover

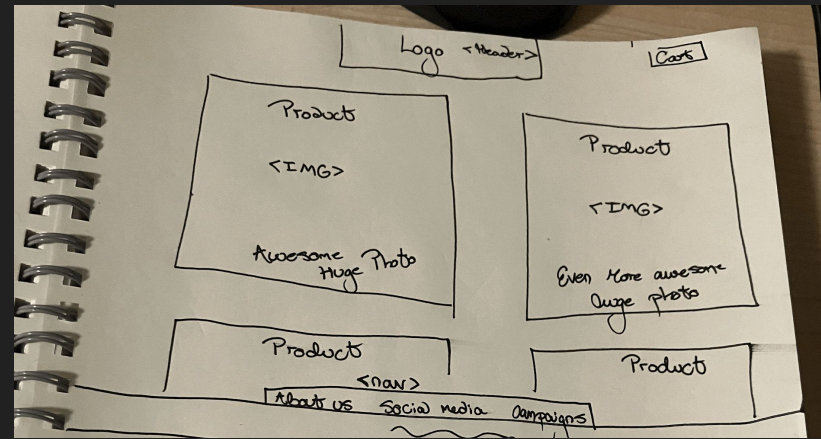

concepts|skills needed

- Images as navigation/ links to other pages.
- Embed Video
- Png Images?
- Social media links
- Custom cursor
-
